

Article Information Sheet

Producer: FUJIFILM Corporation
7-3 Akasaka 9-Chome, Minato-ku, Tokyo 107-0052, Japan
INDUSTRIAL PRODUCTS DIV.
TEL: +81-3-6271-3004 FAX: +81-3-6271-3146

Distribution: FUJIFILM Europe GmbH, Heesenstraße 31, 40549 Düsseldorf, Germany

Issued: 07.02.2007

Modified: 27.07.2017

1. Product

Product Name: Prescale
5LW,4LW,LLLW,LLW,LW,MW,MS,HS,HH

2. Composition

All products of this category consist of a coated polyethylene terephthalate (PET) base.
The main components are as follows:

<u>Main Ingredients</u>	<u>Weight-%</u>
polyethylene terephthalate	70-98
polyvinyl alcohol	0.1-3
microcapsules (containing leuco dye)	1-6
additives	0.1-10
color developer	0.2-6

3. Health & Safety Hazards

Contact with the micro-encapsulated color-forming side of film or rubber spacer of Extreme Low Pressure Film for long periods may cause allergic skin reaction in sensitive individuals. Wear protective gloves is recommended during handling.

4. Fire Hazards and Fire Fighting Measures

This product is capable of burning, but will not ignite or flash under normal conditions.

<u>Product / Main Ingredient(s)</u>	<u>Ignition Temp.</u>	<u>Flash Point</u>	<u>Density</u>
product	N/Av	N/Av	N/Av
polyethylene terephthalate	485-508 °C	345-400 °C	N/Av

Combustion Gases

Carbon dioxides, carbon monoxides, small amounts of nitrogen oxides, sulfur oxides and smoke can be generated depending upon the burning condition.

Fire Fighting Measures

Water, carbon dioxide, extinguishing powder or foam can be used as an extinguishing media.

While fire fighting, wear protective equipment such as self contained breathing apparatus, depending upon the fire situation.

5. Disposal Considerations

5.1 General Disposal Considerations

It is recommended to separate the waste film from other waste streams and to waste it according to local laws and regulations.

5.2 Special Disposal Information for Europe

The following indexes of the European Waste Catalogue apply for waste catalogue number:

- a) processed: "090108" photographic film and paper free of silver or silver compounds
- b) unprocessed: "090108" photographic film and paper free of silver or silver compounds

6. Transport

This product is not subject to dangerous material classification and labelling pertaining to transportation. In situations involving the transportation of the waste across international boundaries, corresponding documentation may be required in accordance with the Basel Treaty, OECD rules, the EC-Waste Transportation Ordinance and their national implementations.

7. Storage

Specific hazards regarding storage are not known. Keep away from water, solvent and gases. Avoid direct sunlight and store in a room.

8. Further Information

The content of this information sheet has been drawn up in accordance with current knowledge at the time when the sheet was issued. This Article Information Sheet provides information related to the environment and to safety and does not make any warranty about the properties or quality of the product. Furthermore, the precautions presented herein are postulated upon normal handling (the type of use originally intended by the manufacturer) of the product.
